

Shower Room policy Capitol Squash Club

Everyone's welfare and enjoyment of the Club is of paramount importance. With this in mind our Club's management representatives constantly review those policies and practices which affect all Members of the Capitol Squash community

One such area that directly impacts on your younger Members (ie below 16 years of age) is that they should be accompanied by a responsible adult when using our Changing room facilities

We do realise that this will not affect many of our Junior Members; however, on the occasion that changing facilities are needed, please allow time to supervise your child whilst getting changed

We must also stress that our Juniors will still have free access to our lockable toilet outside of the changing room area
